Programming Contest

The 2008 ACM Regional Programming Contest is at UW-Parkside. Arrive between 10 and 10:30 for team meetings and instructions. After a lunch, you'll begin coding around 12:30. The contest should finish around 5:30, at which time you have the option of being taken to dinner.

You may bring any non-electronic resources, so pack along some of your textbooks and reference manuals.

A great practice tool can be found at
